

Small but large capacity

JL18 Table Top Bean to Cup Coffee Machine

Fresh grinding and brewing

14 inch vertical touch screen

Various flavor coffee

Separate hot water Wand

Jetinno Espresso Brewer

- 3 seconds pre-soaking technology, water and coffee powder fully contact initially
- 9bar constant pressure deep extraction technology, to extract richer coffee crema
- 92 °C precise temperature control system, to stimulate more intense coffee fragrance
- Pressure discharge and drainage system, coffee grounds change into coffee cakes in seconds to prevent scattering

Provide more than 10 different beverages

- Espresso, Long coffee, Milk coffee, Instant beverage etc.
- Separated hot water wand
- Adjustable menu

Small but large capacity, compact design

- machine size: 310(W) x481(D) x713(H) mm, Suitable for scenarios with limited space like office kitchen
- Canister capacity: bean hopper 5L, instant canister 3.5L/2.3L, large capacity for ingredients
- Max height of deliver area is 130mm, good for jug function

14 inch vertical touch screen

- One-touch, fully automatic production
- One touch screen for multifunctional uses, for advertising and menu, operating and so on

Real-time monitoring, unattended

- Support many types of payment solution, easy to check sales data
- Regular automatic cleaning, to ensure pipeline hygiene and safety
- Operating/component data real-time cloud interaction, real-time monitoring of machine status

Coffee & Instant canisters outside machine

- Visible coffee & instant canisters, clear to know ingredient consumption
- Fill ingredients without opening the front door, easy for operation
